MURAL

## Biography

<em>It is a fabricated story. Find a way to tell, and discuss with a taste for certain aspects of human nature. Submit a joyful universe and a wonderful world and maintain contact - language - between people, as a large staging or a great show. Some characters parade, speak, or be silent, but try to communicate in public. The free expression of this worldview has become a leitmotiv for many years. Is this the right choice?</em> - Ador.
