MURAL

## Biography

Corwin Blackwell began their artistic journey after graduating from the Savannah College of Art and Design. Specifically, in November 2020, obtaining a B.F.A in Illustration. Afterward, Corwin successfully became a professional Illustrator and Muralist. His current murals can be seen throughout Orlando and West Palm Beach.

Corwin then set their sights on forming their own business, creating Blackwell Art on July 1, 2022, in Orlando, FL. With a passion for creativity, the company mainly focuses on developing original, imaginative artwork and merchandise. This element is captured by their originally designed, hand or digitally-painted, and handmade pieces.

Additionally, Blackwell Art incorporates sustainability whenever possible. This is achieved by the making of up-cycled creations to cut down on harmful environmental waste. Moreover, Corwin strives to include different artistic styles within their work. Both wish to have Blackwell Art showcase their appreciation for variation without being categorized into one style.

Lastly, Blackwell Art advocates for creating custom pieces. They encourage those who want custom art and murals created for them to reach out anytime to speak further.
