MULTIMEDIA

MURAL

Biography

Daniela de Castro is a fine artist, muralist, and designer from Caracas, Venezuela. She is based out of Pensacola, Florida. Daniela received classical oil painting training in Spanish realism, has a degree in Graphic Design, and owns a branding + mural business. She has been painting murals professionally for five years.

Daniela has painted murals internationally and in 2021 exhibited paintings in Miami, Florida. Her mural work is often inspired in people, the relationship between humans and nature, and environmental issues. It features bright color and mixes realism, abstract elements, and transparencies. A focus of Daniela's latest mural work is large-scale hands and creating 3D wall installations involving cement, plaster, and metalwork. She is passionate about finding the best fit of artwork and style for any space and is an advocate for the positive impact of public art in cities and communities. Daniela is also a public speaker; she was invited to speak at the 2019 TEDxPensacola about the field of street art, and she has led community workshops on mural concepts and painting techniques.
