MURAL

Biography

Marcus Borges AKA GRABSTER

Graffiti artist, muralist, and abstract artist with a bold take on color and movement.

Born in Brazil, raised in New York, and developed in South Florida, Grabster pulls inspiration from decades of independent study and his eclectic upbringing to create colorful, dynamic, and skillful works. His technical expertise is a facet of his work, evident in his geometric and precise designs built to any scale.

Grabster works with fine art publishers like 1XRUN, where his series of original paintings sold out on opening day. His mural work for Onlyfans was the subject of the brand's recent mini docu series. He's also collaborated with other large organizations like Formula 1, the US Open, and Redbull to create murals, branded installations, and art aimed at community engagement.

Recognized for his retro-futuristic elements, abstract geometry, and tropical color schemes, Grabster's work can be found worldwide and across South Florida, where he's been an established member of the street art community for over 15 years.
