SCULPTURE

Biography

<h3>James Moore:</h3>

<blockquote>"Every community has a story. Your story tells the world who you are and why your town or city matters. The sad truth is that without those stories, the effort that community stakeholders put into making their community a special place is at risk of passing into oblivion - forgotten forever. I work with you to deliver public art that makes your community's story accessible, engaging, and enduring; no matter the viewer's age or background."

For more than 30 years, I've been creating sculptures that promote the feeling of connection, cultivate a sense of inclusivity, and celebrate life, I love working with project stakeholders to create sculptures that reflect the interests of their communities.

My particular style of work enables viewers to see themselves in the work - no matter the viewer's age or background, and feel that the artwork is speaking to and about them. This fosters a feeling of inclusion and encourages a sense of belonging and connection to place."
