MURAL

Biography

Komakes:

I've been a full time artist for the past 8 years after graduating from UF with a BFA in Drawing. The past few years I've been putting my energy and intention into creating murals for the public. One of the greatest joys of my life is to paint big walls using spray paint and share an energy of love and fun with those who view it. I'm all about style and color. I'm inspired by nature, people, animals, and the beautiful and absurd mystery of this experience of being alive. I hope to connect with you. Thank you!
