## Biography

Muta Visión:

My name is Muta Santiago. I am a Hispanic American Visual artist and Muralist, currently based in Miami, Florida. Known for portraiture, experimental and commercial work, I regularly contribute to various public and cultural movements throughout North America, Latin America, as well as online using the power of street art. With a subtle abstract approach, I strive to create work that is clear and uncompromising. Taking inspiration from my surroundings, I try to capture a moment that grabs a hold of you like a moment in time of listening to your favorite song, or being astounded by nature. Creating imagery connected to my families native ancestral history, dreams, and the essence of Eastern Philosophy backed by the power of Street Art, is what my work tends to explore.
