**MURAL**

## Biography

Sol.Intuit is the collaborative art & mural project of Cavan Koebel (Raw.Sol) & Cat Lallier (SEIP Intuit). We share a love of transforming spaces with unique imagery that features vibrant hues, honors nature, and promotes positivity. Both avid travelers, gardeners, and community members, we fuse the beauty of our daily lives into each piece we create.

While our shared passions help to unify our style, we also find strength in our differences. Cavan hails from Miami, Florida. His background is in illustration, and he grew up drawing inspiration from both the colors of the ocean and those of the graffiti in the urban jungle it surrounds. Cat was raised in rural Delaware, with a paintbrush in hand, and an obsession with music and the people that make it. We met in between both of these worlds, live painting at festivals, and slowly began to work together to create a style that is true to both of our roots while continuously evolving to reach new heights.

With nearly two decades of combined professional art experience, as well as our degrees in business & psychology, we're able to create effective solutions across an array of industries. We're incredibly collaborative artists, and we're excited to work with you!

Our business is currently based out of Miami FL, and serves anywhere in the world that needs more color.
