MURAL

Biography

Squiggledaddy:

<blockquote>I'm a South Florida local muralist with a passion for bold design. I specialize in abstract design using complementary colors with the goal of achieving a vinyl-like look. My mural projects evoke youthful energy and positivity using intentionally simplified shapes that create movement throughout an area. I am a self-taught artist with years of production and installation experience. I am so grateful for the ample amount of inspiration that my lively hometown of South Florida provides me with. I hope to empower people to invite adventurous design into their space!</blockquote>
