MURAL

Biography

Veegee:

<blockquote>Im Veegee. Im an artist from China based in America. I graduated as a fashion design major in China. After graduation. I specialize in mural painting and fine art. I was 29 and living in Spain when I painted my first mural. I was invited by Picasso foundation to create a mural project inspired by Picasso's art. Two and a half years ago after leaving Spain.I started my own mural painting career in the USA with my husband . I have been invited to participate in the art exhibition for three times. Painting is my passion. It's just a very natural things for me. I can express what I want to say to this world through my art. Most of my art is about meditation, how people can find their own power, selflove and faith from the deep heart.</blockquote>
